25 E. Harbaugh Drive, Mercersburg, PA 17236 — Phone: 717-328-2141 / FAX: 717-328-5919

Environmental Policy

"To mind the natural environment" is an integral element of our mission and represents our commitment to conduct our activities in harmony with society and nature. Management of the D.L.Martin Co. is committed to its environmental policy and to actively communicate it to all employees, suppliers, and sub-contractors. We expect all our employees to take environmental issues seriously and mind them in their daily activities.

- | | |
|-----------------------|--|
| Continual improvement | In order to conduct our business consistent with principles of environmental protection and stewardship, we incorporate environmental performance requirements into our business processes and practices. We are committed to complying with legal requirements, official regulations and other requirements to which we subscribe as a basic business practice. We are committed to continually improving our environmental performance by establishing written and managed objectives and targets, continuously working to achieve them and updating them from time to time per our procedure. |
| Pollution prevention | We make a commitment to monitor and control the environmental impact of our operational processes. We evaluate processes, practices, materials, products, and energy use to determine strategies that can reduce the creation of pollution and waste. |
| Communication | We foster an open and constructive dialogue on environmental, health and safety issues among our employees. |

President and CEO
